BASKET STRAINER

- 3 1/2" basket strainers in three configurations
- Included with every sink

EA-114

- The EA-114 is the industry standard strainer, constructed of polypropylene with polypropylene crumb cup. Removable shallow waste basket and strainer assembly. This standard strainer readily fits the 3 1/2-inch drain of common plumbing systems. The removable standard shallow basket fits standard 3 1/2" drains and is dishwasher safe. A 4" tailpiece is included. Approved to CSA Standards.

EB-114

- The EB-114 strainer has a deep pull-out basket and is constructed of 18/8, type 304 stainless steel. Fits standard 3 1/2" drains and is dishwasher safe. A 4" tailpiece is included. IAPMO approved to CUPC.

ES-114

- The ES-114 is the industry standard, all metal strainer with a stainless steel 4-inch tailpiece, constructed of 18/8, type 304 stainless steel. Removable shallow waste basket and strainer assembly. This standard strainer readily fits the 3 1/2-inch drain of common plumbing systems. The removable standard shallow basket fits standard 3 1/2" drains and is dishwasher safe. A 4" tailpiece is included. Approved to CSA Standards.
